

DIAN MUKTI WIBOWO

Senior Software Developer · Mobile, Cross-Platform & IoT Specialist

+62822-2187-4400 · mutelitcorp@gmail.com · onyet.github.io · Central Java, Indonesia

PROFESSIONAL SUMMARY

Results-driven Senior Software Developer with 8+ years of technical experience spanning telecom network infrastructure, embedded IoT systems, and cross-platform mobile development. Specializes in hybrid mobile development using Ionic, Angular, and Capacitor.js, with an engineering foundation built early in a telecommunications career at PT Telkom Akses and later strengthened through IoT and embedded systems work (Arduino, ESP32, LoRaWAN). Comfortable leading technical discussions, mentoring junior developers, and integrating third-party services at scale.

WORK EXPERIENCE

Senior Software Developer

PT. Incore Systems Solutions | Sep 2024 – Jun 2026

- Led the design, development, and deployment of cross-platform mobile applications using Ionic, Angular, and Capacitor.js, delivering scalable, production-ready solutions.
- Collaborated with designers, backend engineers, and product stakeholders to deliver well-integrated APIs and smooth UX.
- Led code reviews, mentored junior developers, and contributed to sprint planning and technical roadmap alignment.
- Integrated Firebase, native device features, and third-party services through Capacitor plugins to fulfill business requirements on schedule.
- Configured and maintained Linux-based environments and mail servers, and implemented CI/CD pipelines to automate build, test, and deployment workflows.

Mobile Application Developer

PT. Incore Systems Solutions | Sep 2020 – Sep 2024

- Developed end-to-end hybrid mobile and web applications using Ionic, Angular, Capacitor.js, and Flutter.
- Handled the full development lifecycle: UI implementation, API integration, testing, and performance optimization.
- Managed projects end to end, consistently delivering solutions that balanced technical quality with business and user requirements.

Staff Programmer & Team Lead

CV. Java Multi Mandiri | Jan 2019 – Feb 2020

- Led a development team, defined technical direction, and drove delivery goals.
- Selected Laravel for backend and Angular, Tailwind CSS, and Electron.js for frontend and desktop.
- Built Clickoding.id – Stockraken: an omnichannel platform automating stock synchronization between internal systems and major Indonesian e-commerce marketplaces (Lazada, Shopee, Tokopedia, Bukalapak).

Mobile Developer & IoT Engineer

PT. Egrotek Karsa Utama | Feb 2018 – Dec 2018

- Developed Android applications using Ionic to support internal and client-facing systems.
- Built embedded IoT solutions with Arduino and ESP32 microcontrollers, expanding from mobile development into embedded systems engineering.
- Deployed and configured ChirpStack (LoRaWAN Network Server) and EMQX (MQTT broker) for device communication and data ingestion; the platform remains in active production use.

Network System Specialist

PT. Telkom Akses | Jul 2014 – Jan 2016

- Managed and maintained Wifi.id public network infrastructure across the Wonosobo area, ensuring network stability and uptime.

- Troubleshoot connectivity issues, performed routine maintenance, and coordinated with technical teams on service improvements.
- Monitored system performance, handled user support, and implemented security best practices for reliable public internet access.

TECHNICAL SKILLS

Flutter (Dart)	Ionic / Angular	TypeScript
JavaScript	PHP	Python
Java	Git	Golang
Capacitor.js	Laravel	REST APIs
IoT (Arduino / ESP32)	LoRaWAN / MQTT	Linux / CI-CD

PERSONAL PROJECTS

Onyet Corporation — Independent App Developer

[Google Play Store](https://play.google.com/store/apps/dev?id=4679714779847784928) · play.google.com/store/apps/dev?id=4679714779847784928

Self-published Android applications under the brand Onyet Corporation — "Simple Ideas Become Real". Built and maintained end-to-end: concept, development, Play Store publishing, and post-launch updates. Portfolio spans utilities, tools, and arcade games.

NotifyLog – Notification Logs

- Android app for capturing and reviewing notification history across all installed apps.
- Useful for recovering dismissed notifications and auditing app activity.

Kiblat Compass

- Qibla direction compass app for Muslim users, utilizing device sensors and geolocation.
- Designed for simplicity and accuracy with a clean, minimal interface.

Flashlight

- Lightweight utility app with instant one-tap toggle, multiple light modes (Normal, Strobe, SOS, Screen Light), and an auto-off timer, optimized for offline use and battery efficiency.

FlipTris Evolution

- Arcade block-puzzle game with an original board-flip (horizontal/vertical) twist, hold-piece preview, combo scoring with particle effects, and multiple animated visual themes.

Orbitik: Resonance

- One-tap arcade survival game with orbit-shifting mechanics, procedural neon visuals, a resonance-based scoring system, and Classic/Daily/Zen/Hardcore modes with Play Games leaderboard integration.

EDUCATION

Computer Science (Informatics) — Studies not completed

Universitas AMIKOM Purwokerto

Vocational High School Diploma in Software Engineering

SMK Telkom Purwokerto · 2011 – 2014

CERTIFICATIONS

Google Advanced Data Analytics · *Coursera, 2025*

Flutter — Advanced Course

Gremlin Certified Enterprise Chaos Engineering (GECEC)

Telkom Competency Certification · *Telkom Indonesia, 2014*
