

DIAN MUKTI WIBOWO

Senior Software Developer · Mobile & Cross-Platform Specialist

+62822-2187-4400 · mutelitcorp@gmail.com · [onyet.github.io](#) · Central Java, Indonesia

PROFESSIONAL SUMMARY

Results-driven Senior Software Developer with 6+ years of experience designing and shipping cross-platform mobile and web applications. Specializes in hybrid mobile development using Ionic, Angular, and Capacitor.js, with a strong track record of delivering reliable, performant solutions that meet both business objectives and user expectations. Comfortable leading technical discussions, mentoring junior developers, and integrating third-party services at scale.

WORK EXPERIENCE

Senior Software Developer

PT. Incore Systems Solutions | 2024 – 2026

- Architected and built cross-platform mobile applications using Ionic, Angular, and Capacitor.js.
- Collaborated with designers, backend engineers, and product stakeholders to deliver well-integrated APIs and smooth UX.
- Led code reviews, mentored junior developers, and contributed to sprint planning and feature scoping.
- Integrated Firebase, native device features, and third-party services to fulfill business requirements on schedule.
- Improved app performance across a wide range of Android and iOS devices through targeted profiling and optimization.

Mobile Applications Developer

PT. Incore Systems Solutions | 2020 – 2024

- Developed end-to-end hybrid mobile and web applications using Ionic, Angular, and Capacitor.js.
- Handled full development lifecycle: UI implementation, API integration, testing, and performance optimization.
- Consistently delivered solutions that balanced technical quality with business and user requirements.

Software Developer & Team Lead

Java Multi Mandiri | 2019 – 2020

- Led a development team, defined technical direction, and drove delivery goals.
- Selected Laravel for backend and Angular, Tailwind CSS, and Electron for frontend and desktop.
- Built Clickoding.id – Stockraken: an omnichannel platform automating stock synchronization between internal systems and major Indonesian e-commerce marketplaces.

TECHNICAL SKILLS

Flutter (Dart)	Ionic / Angular	TypeScript
JavaScript	PHP	Python
Java	Git	Firebase
Capacitor.js	Laravel	REST APIs

PERSONAL PROJECTS

Onyet Corporation — Independent App Developer

[Google Play Store](https://play.google.com/store/apps/dev?id=4679714779847784928) · play.google.com/store/apps/dev?id=4679714779847784928

Self-published Android applications under the brand Onyet Corporation — "Simple Ideas Become Real". Built and maintained end-to-end: concept, development, Play Store publishing, and post-launch updates.

NotifyLog – Notification Logs

- Android app for capturing and reviewing notification history across all installed apps.
- Useful for recovering dismissed notifications and auditing app activity.

Kiblat Compass

- Qibla direction compass app for Muslim users, utilizing device sensors and geolocation.
- Designed for simplicity and accuracy with a clean, minimal interface.
